

Churchwardens report

As do many of us I am sure feel so thankful to Matt and the team for the amazing online services throughout the last twelve months. Thank you.

Many thanks to the Stewards who helped during the time the Church was open. Also thank you to the Church cleaning team. A new Steward and cleaning rota will be available as soon as a Church opening date is agreed.

Churchyard

We were able to work in the summer last year and a great team of volunteers achieved much. We completed the new grassed area to the east of the Church, which is now looking good with the exception of a few mole hills. We have replaced the stolen strimmer and blower, which are currently in the tower for safe keeping.

Finally we were able to get our application in to the council for permission to place a secure metal store in the North of the churchyard for our equipment. The application has to date not received any objections, so we are hopeful that permission may be granted. This can then go ahead subject to diocesan approval.

We now have a grass cutting rota for the churchyard and are grateful to those helpers. We have a date for the next churchyard clear up which is Saturday 17th April 9am to 12pm. Please come along if you can.
